SUMMARY

Front-End Developer with a proven ability to collaborate effectively with senior developers while spending extra time to be mentored. Enjoy working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary.

With a passion for both personal growth and for software development, I attended a 1000+ hour coding bootcamp to learn new things. languages while sharpening existing skills. Ready to apply my passion for coding to a talented engineering. team to develop quality solutions.

EXPERIENCE

Professional Front-End Web Development

Udacity August 2022 - December 2022, Online • Learned new skills: JavaScript Introduction, Understanding logic and control flow, JavaScript Syntax, Creating and modifying web content using Javascript. Manage website performance, Work with Node and Express to develop a web application, Build a WebServer. Use promises to manage asynchronous Javascript.

- Worked on Landing Page this project serves two purposes; preparing for appending dynamically added data to the DOM and showing that JavaScript can improve the interactivity of a static website GitHub: Sayed2210/landing-page (github.com)
- Worked on Weather Journal App this project requires the creation of an asynchronous web app that uses Web API and user data to dynamically update the UI for a Weather-Journal App using Node.js and Express GitHub: Sayed2210/weather-journal-app: weather journal app with Html, CSS, JS (github.com)

Web Design

Nti January 2023 - February 2023, Online • What is the internet and the and the World Wide Web? and how the websites work.

- Using HTML to design, edit, link documents, add tables and forms to web pages.
- Planning a website, using text editors versus HTML and WYSIWYG editors.
- Enhancing the web pages using text formatting, colors, graphics, images, and multimedia.
- Control the appearance and the design of a web page using Cascading Style Sheets (CSS) including internal, external and in-line style.
- Using CSS 3 animations, transitions, media queries and flex box to create responsive websites.
- Using Bootstrap Framework.
- Understanding the Client-Side Scripting concept.
- Creating interactivity to a web pages using JavaScript.

PROJECTS

Special Template Using Vanilla JS ,Html and CSS

No Work • February 2023 - March 2023

- Developed reusable components with vanilla JavaScript, HTML and CSS, reducing coding time by 40%.
- Implemented a mobile first design and UI/UX, resulting in a 20% increase in customer engagement.
- Utilized test driven development approach to reduce bugs and ensure bug-free interface with unit tests and integration tests.
- Used version control GIT for back-end development of the project and to ensure proper source code management.
- <https://github.com/Sayed2210/Special-Template-Vanilla-JS>

Bootstrap 5 Design Bondi

No Work • March 2023 - March 2023

- Developed reusable components with Bootstrap 5, HTML and CSS, reducing coding time by 70%.
- Utilized test driven development approach to reduce bugs and ensure bug-free interface with unit tests and integration tests.
- Used version control GIT for back-end development of the project and to ensure proper

source code management. • <https://github.com/Sayed2210/Bootstrap-5-Design-Bondi>

Dashboard Web app Using HTML and Pure CSS

No Work • November 2022 – January 2023

- Developed a dashboard web application using HTML and Pure CSS to track budget costs, optimized website loading performance by 80% and increased visibility of reports by 66%. .
- Designed and implemented user interface components using HTML, Pure CSS and ensured cross-browser compatibility.
- Updated existing UI components and optimized navigation for improved user navigation experience. • <https://github.com/Sayed2210/DashboardPage>

Landing Page With Animations

November 2022 – November 2022

- Developed reusable components with HTML and CSS, reducing coding time by 30%.
- Implemented a mobile first design and UI/UX, resulting in a 20% increase in customer engagement. • Utilized test driven development approach to reduce bugs and ensure bug-free interface with unit tests and integration tests. • Used version control GIT for back-end development of the project and to ensure proper source code management. • <https://github.com/Sayed2210/LandingPageWithAnimations>

Leon Template Landing Page

September 2022 – October 2022

- Developed reusable components with HTML and CSS, reducing coding time by 40%.
- Implemented a mobile first design and UI/UX, resulting in a 20% increase in customer engagement. • Utilized test driven development approach to reduce bugs and ensure bug-free interface with unit tests and integration tests. • Used version control GIT for back-end development of the project and to ensure proper source code management. • <https://github.com/Sayed2210/LeonTemplateLandingPage>

EDUCATION

Bachelor's of Computer Science

Minor in No • Mansoura • Mansoura • 2022 • Good

CERTIFICATIONS

Professional Front-End Web Development Udacity

2022

Learned new skills: JavaScript Introduction, understanding logic and control flow, JavaScript Syntax, Creating and modifying web content using Javascript. Manage website performance, Work with Node and Express to develop a web application, Build a WebServer. Use promises to manage asynchronous Javascript. Worked on Landing Page this project serves two purposes; preparing for appending dynamically added data to the DOM and showing that JavaScript can improve the interactivity of a static website GitHub: Sayed2210/landing-page (github.com) Worked on Weather Journal App this project requires the creation of an asynchronous web app that uses Web API and user data to dynamically update the UI for a Weather-Journal App using Node.js and Express GitHub : Sayed2210/weather-journal-app: weather journal app with Html, CSS, JS (github.com)

NTI / Web Design

Learned Hyper Text Markup Language (HTML), Cascading Style sheets (CSS). Bootstrap framework and JavaScript (JS) for web.

Development Challenger FWD

2022

Learned Hyper Text Markup Language (HTML), Cascading Style sheets (CSS) and CSS3

SKILLS

Technical Skills: Html, CSS, CSS Flexbox, CSS Grid, JavaScript, Html, Sass Scss, jQuery Bootstrap Node Js, Bootstrap Pugjs

, Industry Knowledge: UX/UI, Development Operations, Testing, Debugging, Usability Research
